
R.A.I.N. Chapters and Locations

The Resource Awareness Information Network, R.A.I.N, is a networking organization for all types of businesses, from small business owners to the large industry partners that wants to get the word out about their products and/or services. Chapters continue to grow, 8 to 20 members per group. A small group provides an opportunity to learn more about you and your business, resulting in quality referrals to you.

The first meeting is open to anyone wishing to learn more about whom we are and how we help each other. After the third meeting, you will be asked to become a member at \$25/year. This \$25 enables you to participate in all chapters. Those chapters meeting at assisted living facilities have a set price for lunch. Where meetings are held in restaurants, attendees are encouraged to buy their own lunch and take good care of our servers.
